

Cloud Solutions & Services

Arraya Solutions speeds transformation and IT modernization through our ability to assess, migrate, optimize and manage workloads and applications. We will work hand-in-hand with you to maximize the advantages of modern computing.

Benefits of engaging with our certified experts, proven processes and best of breed tools include:

- **UNDERSTANDING READINESS:** Assess people, process and technology to document current environment.
- **GAINING ALIGNMENT:** Define business goals and identify gaps across the organization that need to be addressed for success.
- **REDUCING COMPLEXITY:** Deliver the guidance and technical skills needed to address complex requirements.
- **LOWERING RISK:** Provide recommendations with financial information to drive informed decision-making.

A comprehensive cloud strategy must account for resource consolidation and management, on-demand self-service, broad network access and rapid elasticity. How do you evolve your IT strategy to incorporate these benefits without impacting your ability to confidently deliver services to end-users? The answer lies in choosing a partner who understands your situation and knows how to help.

Arraya's cloud services are designed from the onset to help you achieve your goals at various stages on the cloud continuum — private, public, hybrid and cloud native. Our goal is to empower you to choose the right mix of cloud platforms and environments that address your individual requirements at any stage of the cloud journey.

OUR CLOUD SERVICES PORTFOLIO

STRATEGY & ASSESSMENT

- Cloud Readiness
- Cloud Strategy
- Data Center Automation
- IT Application Maturity and Cloud Platform Readiness
