# BENEFIT FROM SIMPLE, EFFECTIVE EMAIL SECURITY FOR OFFICE 365

Email is the most prevalent business communication tool, but it's also one of the top attack vectors for cybercriminals. With over 90% of breaches[1] starting through email, there's never been a better time to invest in email security that's built specifically for your Office 365 deployment.

THE CHALLENGES AND REALITIES OF SECURING CLOUD-BASED EMAIL

If you're one of the many organizations that uses Office 365 for email, you may not be as protected as you think you are.

OFFICE 365 HAS CYBERCRIMINALS' ATTENTION

The sheer number of users on the platform has attracted the attention of cybercriminals.

CYBERCRIMINALS ARE CONSTANTLY EVOLVING

They are finding new ways to exploit the weakest link in your security chain through email.

BLENDED ATTACK SUSCEPTIBILITY

With cloud-based email you are at more risk for blended attacks from multiple vectors.

DEFAULT SECURITY ISN'T ENOUGH

Effective email security requires more than basic tools that inspect emails at a single point in time.

YOUR CLOUD-BASED EMAIL NEEDS AN ADDITIONAL LAYER OF PROTECTION AGAINST TODAY'S SOPHISTICATED CYBERTHREATS – AND TOGETHER WITH CISCO, WE CAN DELIVER ONE

SECURE YOUR OFFICE 365 DEPLOYMENT WITH CISCO EMAIL SECURITY

Cisco's Email Security for Office 365 integrates multiple layers of security and threat intelligence to better protect your organization from malware, ransomware, business email compromise, phishing, and more.

CISCO EMAIL SECURITY

CURRENT EMAIL DOMAIN

EXTERNAL DOMAIN

GAIN THREAT INTELLIGENCE

Cisco Talos gathers real-time threat intelligence so you can identify threats as they're emerging and block them faster.

COMBAT STEALTHY MALWARE

Cisco AMP protects against malware that evades point in time detection, and enables auto remediation of malicious files.

BLOCK URL-BASED THREATS

Cisco Umbrella provides real-time protection against emails with risky links and blocks websites with malicious intent.

MAKE DECISIONS FASTER

Cisco Threat Grid helps you analyze what malware is doing so you can better understand the threat and take action faster.

YOU WILL ALSO BENEFIT FROM A HOST OF OTHER BUILT-IN FEATURES:

- ✓ Anti-spam
- ✓ Forged email detection
- ✓ Email encryption
- ✓ Comprehensive reporting
- ✓ Data loss prevention
- ✓ Graymail detection

ARRAYA HAS THE CISCO AND SECURITY EXPERTISE YOU NEED

We will work with you as a trusted advisor to architect, deploy, and support the security technology you need to stay ahead of today's sophisticated cyberthreats.

| We go above and beyond for our customers to make a challenging topic like security easier to tackle.

| We are a security-minded organization that can even provide security awareness training to your end-users.

| We have a strong Cisco partnership and know how to extract the most value from their solutions.

| We have your back, offering fully-managed support for the cybersecurity solutions we deploy.

GET A FREE EMAIL SECURITY RISK ASSESSMENT

You'll receive a report with valuable insights into the threats that exist in your Office 365 domain, and what you can do to remediate them.
