

## Microsoft Solutions

The members of the Arraya Solutions team possess Enterprise Architecture expertise along with deep knowledge and production delivery experience with big impact solutions, including cloud, datacenter management and automation, messaging and collaboration, and virtualization.

That experience and industry know-how have been distilled into a proven methodology which the Arraya team uses to deliver high value solutions to clients. Those solutions are tailored to best meet our clients' unique business needs.

## MAKING TECHNOLOGY WORK FOR BUSINESS

The Arraya Solutions Microsoft Practice has the depth and experience to strategize, plan, design, implement, and manage very large enterprise solutions including:

**END USER COMPUTE & MOBILITY** — Empower your workforce to remain productive in the office or on the go with cloud-first technologies that remove the boundaries of the traditional workspace. Leverage solutions such as Azure, Intune, Office 365, System Center, and more to ensure employees have a secure, reliable way to access the company resources they need, whenever they need them.

**CLOUD SOLUTIONS & AUTOMATION** — Why not have your service desk application work for you? End user-friendly, cloud-driven self-service automation takes IT pros out of the loop for repeatable and well-defined business processes. By automating these repeatable processes, IT staffers will be free to tackle larger and more meaningful tasks in your technology environment.

**COLLABORATION** — Despite persistent rumors of its demise, email continues to be a foundational piece of corporate communication and collaboration strategies. Office 365 takes that stalwart solution and launches it into the cloud, eliminating much of the hands-on effort required by on-prem email deployments. In addition, Office 365 backs that platform with advanced, real time communication tools like Teams, capping off an approach that increases security while decreasing management complexity.

## DISCOVER ARRAYA

Arraya Solutions provides technology strategies and solutions to propel your business forward. Through an extensive offering of IT solutions, advisory, consulting, staffing, and managed services, we empower our customers to achieve impactful outcomes. Arraya delivers the tools, talent, and technological expertise companies need to rise to the top of their field.

When you partner with Arraya, you get much more than industry-leading IT solutions and services. You get a team of individuals who are as committed to your business as you are. Our employees have the technical skills and experience necessary to resolve any issues you may have, but it's our people skills and attention to the customer experience that set us apart. We focus on building strong relationships with our customers that instill comfort, trust and peace of mind.
